

Aspen Memory Centre

Premium memory care

A family concern, committed to loving care

The Aspen Memory Centre is a high-quality home that specialises in caring for people with memory challenges. It is located within Horkesley Manor, which is managed and operated by the Stow Healthcare Group.

The Aspen Memory Centre is a home that specialises in caring for people with memory challenges. Our methods are firmly based on 'Montessori methods for care', which aim to promote a non-clinical and homely feel. Staff known as 'Homemakers' support those living in the memory Centre, known as 'Family Members', to help maximise their independence and find real purpose and joy in each day.

At the Aspen Memory Centre, each family member can choose between a variety of suites, all offering:

- Access to all communal facilities
- Generous living accommodation
- Private telephone line
- Digital TV connection
- Quality furnishings

Importantly, each suite can be personalised to allow you to turn the Aspen Memory Centre into your home.
